

ECAP RELEASE NOTES 9.23.24

What's New

- Continued migrating legacy client to new platform, so they can utilize the most recent version of the application.
- UI Updates made to provider cleaner user experience:
 - Client and Provider Profiles: Added pagination to Placement History section
 - Assessment History - Added more space to historical entries.
- Timeout: Updated timing on when the warning message will show before a user is timed out, as well as when a user is timed out to reduce interruptions.
