

ECAP Release Notes 9.9.24

What's New

- Began migrating legacy client to new platform, so they can utilize the most recent version of the application.
- Added new distance filter on the Best Match List to accommodate court request
- Placement Request Report: Added a new column that will provide more insight into the date/time of when referrals are being sent.
- Client History: Updated the client history to make sure that the most recent records for clients with extensive history are still visible.
