

## ECAP Release Notes 7.15.24

July 15, 2024

### What's New

1. **Translations:** With continuous updates to translations, this provides an easier and cleaner user experience for French, Spanish and Polish speakers.
2. **Google Analytics:** Page view tracking has been implemented as well as tracking for the following:
  1. Provider Comparison on the Best Match List
  2. Map View tab on the Best Match List
  3. Running of each individual report.
  4. Tracking how users are interacting with these specific features will provide more insight into how we can train and assist our users.
3. **UI Updates:** For mobile users, we have added a notification that will more clearly show which potential matches have not been viewed yet, providing a cleaner experience.

### Bug Fixes

1. **Overlap Issues:** Fixed issues with overlapping dates on new, existing and historical placements.
