

ECAP Release Notes 8.12.24

August 13, 2024

What's New

- **Best Match List** – Updated to make the highest tier clickable on page load only to ensure that the providers who fall under this tier are all contacted before moving on to the next highest tier available.
- **UI Update** – Added pagination to the Client Assessment History on the Client Profile to provide a better experience for users who are viewing previous assessments.
- **Click Tracking** – Implemented additional tracking and logging to gain more insight into how users are interacting with ECAP.
- **Translations** – Continued updates for French, Spanish and Polish Speakers for the following pages: Admin, Reports.

Bug Fixes

- **Level of Care on Client Profile** – Fix to restore ability to change date/time of Level of Care, as well as add additional levels of care to a current placement.
