

What's New

- Went live with legacy client upgrade to current system.
- **Search Page:** Search capabilities now include being able to search by any column in the results.
- **Reporting:**
 - **Provider Profile History Report:** The following columns were added to provide more information to users viewing the report:
 - Address, City, Zip Code (County & State already existed in the report.)
 - Assigned Worker
 - **Placements by Date:** Room Name
- **UI Updates to provide a cleaner user experience include:**
 - Making the Save button the same size as the Cancel button on the Add/Edit Client Form
 - Aligning the Save button with the Cancel button on the Add/Edit Provider Form
 - Moving the Add Client Button to the left side of the Clients Awaiting Placement page table
 - Making the names of the providers who were unlisted at the time of contact bold in the Client History modal.
 - Updated text on the Contact Us Form
 - Increasing the font size and making the name of the rooms bold in the rooms/beds section of the Make a Placement Form.
 - Making the First and Last Name fields the same size as Gender, DOB and Start Date in the Licensed Adults section on the Add/Edit Provider Form.

Bugs

- Fixed Clients showing in the Others in Home section on the provider profile after the clients placement ended.
- Fixed any changes to placements showing a new record every time in the Others in Home section on the provider profile.
- Fixed error showing when trying to edit a provider.
