

What's New

Improved search efficiency and expanded search capabilities to return more results.

Updates were made to the following areas to improve user experience:

- **Edit/End Placement:** Removed 0 that was present on the form that is not needed.
- **Reports:** Updated so that if an agency is chosen on one report, it does not autofill across all reports.
- **Best Match Page:** Updated 'Case Plan Goal' text so it shows as three separate words.
