What's New

- Manage Users: Added 'Select All' option to Regions dropdown.
- Clients Awaiting Placement Page: Restored placement of search

Bugs

- Best Match List: Addressed issue with providers not showing on Best Match List.
- Placement Requests: Addressed issue of not seeing additional workers added to placement request. This has been addressed in the following areas:
  - Dashboard: Both workers assigned when making a placement request will see the client on their dashboard.
  - Clients Awaiting Placement Page: Both workers will be listed on the Clients Awaiting Placement Page.
  - Clients Awaiting Placement Page-Edit Placement Requests: If additional workers are added to the placement request, both will be visible on the form and in the areas mentioned above.
